IPS Newsletter 16 Feb. - 23 Feb., 2014

	Title	Date, Time, Place
Tel Aviv University		
Astrophysics Seminar		
1	Dr. Avi Shporer Sagan Postdoctoral Fellow, JPL	Atmospheric characterization of the hot Jupiter exoplanet Kepler-13Ab Wednesday, 19 Feb, 2014 - 14:10 - 15:10 Holzblat hall
Colloquium		
2	Professor Pablo Esquinazi University of Leipzig, Germany	Defect-Induced Magnetism in Solids Sunday, 16 Feb, 2014 - 16:00 Melamed Hall 006
3	Professor Ludwik Leibler ESPCI, Paris	Professor Yuval Ne'eman Memorial Lecture: "VITRIMERS: A NEW CLASS OF MATERIALS" Sunday, 23 Feb, 2014 - 16:00 Melamed Hall 006- Shenkar Physics building
The Hebrew University of Jerusalem		
Astrophysics Seminar		
1	Dr. Avi Shporer Caltech / JPL	"Atmospheric characterization of the hot Jupiter exoplanet Kepler-13Ab" Tuesday, 18 Feb, 2014 - 12:30 - 13:30 Kaplun Building, Seminar room, 2nd floor
Colloquium		
2	Prof. Amit Meller Department of Biomedical Engineering, Technion and Department of Biomedical Engineering, Boston University, Massachusetts	"Sensing Single Biomolecules using Solid- State Nanopores" Monday, 17 Feb, 2014 - 12:00 - 13:30 Levin building, Lecture Hall No. 8
Condensed Matter Seminar		
3	Prof. Dr. Pablo Esquinazi Institute for Experimental Physics II, Fakultät für Physik und Geowissenschaften, University of Leipzig	"Defect-Induced Magnetism in Solids" Thursday, 20 Feb, 2014 - 12:00 - 13:30 Danciger B Building, Seminar room
Nonlinear Physics Seminar		
4	Dr. Yael Roichman Tel-Aviv University	"Dynamics in Steady State in-Vitro Acto- Myosin Networks" Wednesday, 19 Feb, 2014 - 12:00 - 13:30 Danciger B building,
